

DATA	SPEAKER	AFFILIAZIONE	TOPIC	DOCENTE DI RIFERIMENTO	LABORATORIO
OTTOBRE 2021					
25/10/2021	Maria Maiarú	School of Pharmacy, University of Re	Botulino e dolore	Alessandra Colciago	Magnaghi
NOVEMBRE 2021					
08/11/2021	Valentina Lo Sardo	University of Winsconsin	Deciphering the non-coding genome with iPSCs and genome editing	Matteo Audano	"Giovanni Galli"
15/11/2021	Barbara Tedesco	Unimi	Gain of toxic function of Chaperone Assisted Selective Autophagy members in neuromuscular diseases: a characterization of disease-related mutants	Angelo Poletti	Poletti
DICEMBRE 2021					
13/12/21	Diego Scheggia	Unimi	Neural circuits underlying social decision-making	Fabrizio Gardoni	Di Luca - Gardoni
20/12/21	Andrea Baragetti	Unimi	Awakening a "gut-liver-bone marrow" cross-talk during initial stages of cardiovascular risk	Alberico L. Catapano	Catapano-Norata
GENNAIO 2022					
10/01/2022 - ore 16:30	Algerta Marku	Unimi	Deciphering the role of the serine threonine kinase LRRK2 in pancreatic b-cell function	Carla Perego	Perego
20/01/2022 - ore 17:00	Mariafrancesca Greco	Dottorandi SFBSC	Extracellular vesicles enriched in PCSK9 are indicative of pro-atherogenic phenotype: in vitro and in vivo evidence	Massimiliano Ruscica	Corsini
	Nicola Lopizzo		Vulnerability to early life stress: dissecting the interplay between the gut microbiota and the immune system	Marco Andrea Riva	Riva
24/01/2022 - ore 16:30	Lorenzo da Dalt	Unimi	PCSK9 & extrahepatic tissues	Giuseppe Danilo Norata	Catapano-Norata
FEBBRAIO 2022					
07/02/2022 - ore 16:30	Lorenzo Mannelli	Esterno	Da confermare	Enrico Sangiovanni	-
24/02/2022 - ore 17:00	Gloria Melzi	Dottorandi SFBSC	Do numbers matter? A toxicological study of particulate matter	Marina Marinovich	Marinovich
	Monika Svelca		The impact of asialoglycoprotein receptor 1 on altering lipid metabolism and atherosclerosis	Giuseppe Danilo Norata	Catapano-Norata
28/02/2022 - ore 16:30	Luca Palazzolo	Unimi	SLC transporters	Ivano Eberini	Eberini
MARZO 2022					
14/03/2022 - ore 16:30	Giovanni Tommaselli	Unimi	Da confermare	Tiziana Borsello	Borsello
24/03/2022 - ore 17:00	Giacomo Butta	Dottorandi SFBSC	Heterogeneity of HIV latency establishment in the different CD4+ T memory subsets	Raffaele De Francesco	De Francesco
	Kerstin Creutzberg		The broad impact of gestational adversities on adolescence: relevance for the vulnerability to mental disorders	Marco Andrea Riva	Riva
28/03/2022 - ore 16:30	Da confermare	Esterno	Da confermare	Da confermare	-
APRILE 2022					
28/04/2022 - ore 17:00	Donato Moschetta	Dottorandi SFBSC	Calcific aortic valve stenosis: a matter of sex	Marina Camera	Camera
	Valentina Melfi		An in vitro model of Schwannomatosis: isolation and characterization of CD271+ Schwann Cell	Valerio Magnaghi	Magnaghi
MAGGIO 2022					
02/05/2022 - ore 16:30	Francesca Colombo	Unimi	Celiac disease	Patrizia Restani	Restani
09/05/2022 - ore 16:30	Stefano Raffaele	Unimi	Strategies to promote remyelination in neurodegenerative diseases	Marta Fumagalli	Abbracchio
19/05/2022 - ore 17:00	Alessandra Napoli	Dottorandi SFBSC	Metabolic adverse effects induced by second generation antipsychotic drugs in pediatric patients: pharmacogenetic profiling and mechanistic analysis of genetic variants effect in vitro models	Emilio Clementi	Clementi
	Laura Canclini		Therapy with anti PCSK9 monoclonal antibodies affects the PCSK9-LDL association in high risk individuals	Alberico L. Catapano	Catapano-Norata
23/05/2022 - ore 16:30	Valentina Zonca	Unimi	Early life stress and psychopathology	Marco Andrea Riva	Riva
GIUGNO 2022					
06/06/2022 - ore 16:30	Marco Chierici	Esterno	Da confermare	Manuela Casula	-
16/06/2022 - ore 17:00	Andrea Magnavacca	Dottorandi SFBSC	The ability of red and green Brazilian propolis to improve cutaneous wound healing - A focus on cellular regeneration through HIF-1 pathway modulation	Mario Dell'Agli	Dell'Agli
	Alyssa Paganoni		Investigating the role of Rhotekin and Sema3E during neurodevelopment: implications for intellectual disability	Anna Cariboni	Cariboni
20/06/2022 - ore 16:30	Alessandra Martorana	Unimi	Cell envelope biogenesis: Ajax shield or Achilles' heel for Gram- negative bacteria?	Alessandra Polissi	Polissi
LUGLIO 2022					
14/07/2022 - ore 17:00	Elena Casarotto	Dottorandi SFBSC	Neurodegenerative disease-associated TDP-43 fragments are extracellularly secreted with CASA complex proteins	Valeria Crippa	Poletti
	Filippo La Greca		Investigating the neural bases of social learning	Monica DiLuca	DiLuca-Gardoni
SETTEMBRE 2022					
22/09/2022 - ore 17:00	Eva Falvo	Dottorandi SFBSC	Diabetic encephalopathy and neuroactive steroids: observations in female rats	Cosimo Roberto Melcangi	Melcangi
